# Introduction

**Hong Kong St. John Ambulance** has been established in Hong Kong for 140 years. It was first started in 1884 in the name of "Hong Kong St. John Ambulance Association" and inaugurated in 1900. The **Brigade** was formally established in 1916 during World War I, followed by the establishment of the **Council** in 1949 after World War II. In 2015, Hong Kong was upgraded as a **Priory** of the Order of St. John. As an ex-officio member of the Grand Council of the Order, Hong Kong ever since then has a broader scope of involvement in international policies and activities.

Hong Kong St. John Ambulance has been well-known in the provision of First Aid training and Ambulance services to the general public in Hong Kong. The principle and spirit of Hong Kong St. John Ambulance as embodied in the motto **"For the Service of Mankind"** remain unchanged after the enactment of the new **Hong Kong St. John Ambulance Incorporation Ordinance (Chapter 1164)** on 27 June 1997. Hong Kong St. John Ambulance continues in promoting and encouraging all works of humanity and charity for the relief of distress, suffering, sickness, danger and poverty without any distinction as to colour, class or creed.

The **Council** is the supreme governing body of **Hong Kong St. John Ambulance** and is charged with the governance, management and control of all businesses and activities of the Corporation. The Council is composed of dedicated volunteers from various professions and the Assistant Director (Administration and Policy) of the Department of Health also sits in the Council as an observer. The Council's work is facilitated by its standing Committees, namely, Two MacDonnell Road Management, Finance, Honours and Awards, Public Relations, Property Management and Development, Greater China Affairs, Ambulance Service Steering and Information Technology.

The **Association**, the training branch, has been the premier organization of the territory responsible for instructing members of the general public the principles and practice of First Aid, Home Nursing and allied subjects since 1884. The **Director's Conference** ensures that training works of the Association are conducted effectively and efficiently. There are 538 volunteer lecturers and instructors, including doctors, nurses, allied health professionals and non-professionals.

The **Brigade**, the service branch, is responsible for organizing training and equipping adult and youth members to undertake, on a voluntary basis, First Aid, Home Nursing, Ambulance and Community Services to those in need. The services are free. The **Commissioner's Conference** is responsible for overseeing the organization, administration, services provision and development of the Brigade. At present, there are 7,750 members, made up of 3,179 Adult and 4,571 Youth members including 225 members from St. John Pandas.

# Chairman's Report

Serving the community through the voluntary work of St. John has given me great pleasure, pride and satisfaction. I would like to express my sincere appreciation and heartfelt gratitude to my fellow Members of the Council for their unfailing trust, valuable advice and strong support in my chairmanship, which are essential for meeting our challenges all along and ahead.

This year marks the 140th Anniversary of Hong Kong St. John Ambulance. A celebration dinner was held on the 21st of April at BP International, with the Lord Prior and Director of Health as officiating guests, accompanied by the Commander-in-chief and Chairman of St. John Ambulance of Malaysia. A highlight of the evening was a Memorandum of Understanding Signing Ceremony with the Guangzhou Emergency Medical Command Center. There were lots of joy, exchanges and souvenirs.

The "Pre-hospital Cardiac Resuscitation – Past and Present" Exhibition was finally held from 25 June to 31 August 2023, looking back at the past development and learning from the present achievement. There were interviews with the media and a total attendance of 2,376 visitors. The hard work and dedication of St. John members are deeply appreciated.

The "Jockey Club Heart-safe Community Project" for installation of automated external defibrillators (AED) and provision of training in CPR and AED for staff of social service units and public First Aid educational talks finally concluded officially in August 2023, spanning 3 years and 9 months from November 2019 owing to interruption by the Covid-19 pandemic. Through the effort of St. John, more than 700 AEDs were installed in social service units, while over 6,200 staff were trained with CPR and AED skills. Over 45,000 members of the public attended the Public Education Talks on First Aid topics. In view of our good performance, the Jockey club invited Hong Kong St. John Ambulance to extend the project for one more year, from September 2023 to November 2024.

With the fading away of the Covid-19 pandemic, the Brigade was able to resume normal activities gradually. They provided 192,950 man-hours of first aid, dental and community services, or 139% of the previous year (138,503), exceeding our performance pledge with the Department of Health of 170,000 man-hours annually. Notably, the Dental Command increased both clinic and outreach services, in addition to public promotional campaign. The overall ambulance service target was partially achieved (9,702 emergency and 576 non-emergency), as compared with 11,032 emergency and 484 non-emergency last year and our performance pledges with the Department of Health of 7,000 emergency and 750 non-emergency. On the contrary, the number of students trained by the Association last year was only 79,377 or 71% of the previous year (111,679)! Though our performance pledge with the Department of Health was only 21,000, remedial actions for this landslide downturn are definitely needed.

St. John has been lagging behind for decades with the trend for specialization and modernization of its ambulance service, which remains at the basic level. A formal Ambulance Aid course manual for St. John ambulance staff and volunteers is in the pipeline, and hopefully it will be available by the end of this year as a gift to the 140th Anniversary. The next step will be standardized systematic training for all St. John ambulance staff and volunteers.

# Chairman's Report

The achievement and success that have been made by Hong Kong St. John Ambulance would not be possible without the full dedication and commitment of our volunteers and staff, who have served conscientiously to uphold the highest tradition of St. John in every way. To them, I wish to express my sincere thankfulness and appreciation for their admirable work. In addition, the generosity and guidance of the Department of Health, Home and Youth Affairs Bureau, Hong Kong Jockey Club, Community Chest and other donors keep us on the right track to respond to the needs of our local community, enabling the continuation and expansion of our services and works.

I am confident that St. John will grow from strength to strength and strive to provide better services for the community. Glory goes to every member of Hong Kong St. John Ambulance.

Dr. Chung Chin-hung, KStJ

1. **Pre-hospital Cardiac Resuscitation – Past and Present Exhibition 「院前心肺復甦 - 過去與現在」**
   Hong Kong St. John Ambulance introduced Automated External Defibrillation since 1993 to improve the chance of survival for sudden cardiac arrest patients. After 30 years of promotion by the government and non-profit making organizations, the public has embraced the concept that anyone can use an Automated External Defibrillator (AED) to save life, as long as they are willing to step forward and become a "heart-saving hero".

   To mark this milestone, a free admission exhibition to introduce the technological and equipment developments in "heart-saving" measures over the past half century was held at 6/F, St. John Tower, 2 MacDonnell Road, Hong Kong from 25 June to 31 August 2023. The exhibition aimed at passing to the public the message that the equipment and techniques used in emergency cardiac care today were not easy to come by, and that we should cherish and make good use of the opportunity to save lives by learning how to use AED and perform CPR. The exhibition was overwhelming and recorded 2,376 visitors during that period.

2.
